Manila Mobile Energy Storage Container Fast Charging

Overview

Does mober have a solar charging hub in Pasay City?

The expansion comes after Mober inaugurated its first charging hub in Zamora Street, Pasay City, in 2023. Its initial hub spanned 800 square meters and had 30 charging units. To further its sustainability goals, Mober is exploring the addition of solar photovoltaic (PV) panels and a 500 kWh battery energy storage system (BESS) at Central Charge.

How EV charging can be improved across Metro Manila?

Enhancing EV Charging Accessibility Across Metro Manila Multiple POW units will be deployed across Metro Manila, providing convenient and sustainable charging services in areas lacking stationary infrastructure.

Where is mober EV charging facility located in Pasay City?

The state-of-the-art facility located along D. Macapagal Avenue in Pasay City covers 3,000 square meters with a 56-port capacity to serve Mober's mixed fleet of e-vans and e-trucks. With a structured three-shift system, it has the capacity to charge up to 200 EV trucks daily, ensuring round-the-clock operational support for its logistics fleet.

Why is mober launching central charge?

Aligning with the progressive mandates of the Electric Vehicles and Charging Systems (EVIDA) Act, Mober's initiatives underscore the Philippines' assertive stance on eco-driven policies and endeavors. With the launch of Central Charge, Mober is set to strengthen the foundation for a greener future for Philippine logistics.
