ŁOTWA SYSTEM

Maldives rainproof solar panel manufacturer

Overview

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners The colour of PV panels matches the island colour palette Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

What is rooftop solar for Islands?

Rooftop solar for islands Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance. We work with ultra-luxury resorts and small businesses alike – always aiming to provide great service.

What is solarsea?

SolarSea is the first and the only time-tested commercial solar PV solution for the sea. Swimsol has worked on the world’s first floating solar solution for the sea since 2009 All of the components are marine-grade, specifically for tropical sea environment.

Does swimsol offer a solar PV system?

Swimsol offers an option, where we finance, install, operate PV on customers premises and sell solar energy to the client. This results in cost savings compared to diesel power. Swimsol designs and dimension solar PV systems individually.
