

# **100-foot solar-powered container for emergency rescue**

## Overview

---

These solar-integrated backup power units combine photovoltaic generation, lithium battery storage, and smart energy control into a compact, transportable container—delivering reliable electricity whenever and wherever it's needed. What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is HJ mobile solar container?

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and smart energy management.

What is a patented solar panel array?

Patented solar panel array can be deployed immediately once a unit arrives on location. 24/7 energy to power Internet connectivity, satellite communications, and a full range of wireless VSAT, VOIP and wireless communications.

## 100-foot solar-powered container for emergency rescue
