

# **10GWh solar container battery project**

## Overview

---

Are battery energy storage systems a capex-intensive project?

More efficient and longer-lasting batteries are crucial as the grid-scale battery energy storage systems are capex-intensive projects with long-term power-purchase agreements between energy providers and distribution companies. (File Photo: AP).

Is a 40 GWh battery storage capacity a part of PLI-ACC?

These conditions were not part of the 40 GWh of battery storage capacity so far bid under the Advanced Chemistry Cell incentives scheme (PLI-ACC). The ministry of heavy industries is overseeing the scheme in consultation with the ministries of power, new and renewable energy, and communications.

Could more efficient batteries be mandated to address grid stability concerns?

(File Photo: AP) NEW DELHI: More efficient batteries with longer lifecycles could be mandated to address grid stability concerns under a scheme that offers incentives to produce 10 gigawatt-hour (GWh) of utility-scale power storage, said two people in the know of the developments.
