

15 kW solar energy price

Overview

How much does a 15 kW solar system cost?

The 15 kW off-grid solar system requires additional battery costs that amount to between ₹10,00,000 and ₹12,00,000. Among all solar systems, the 15 kW hybrid system stands as the costliest option because its installation expenses reach from ₹12,00,000 to ₹15,00,000.

How many kilowatts does a 15 kW solar system produce?

On average, a 15 kW on-grid solar system produces about 65 to 75 units per day, depending on your location. Here are some key highlights of having on-grid 1-kilowatt solar panels at home: Since this type of solar system requires fewer components, it is on the affordable side — no recurring costs.

Should you buy a 15 kW solar system?

Homeowners are running toward the 15 kW solar system because it stands out as an efficient solution for larger properties. The price of a 15 kW solar system depends on its brand choice alongside its type selection as either an on-grid or off-grid configuration.

Can a 15kW solar system make money?

The beauty of solar energy is that you can actually generate a profit from it. With a 15kW solar system, any excess electricity that you generate but don't use can be sold back to the grid. This means that you can earn money from the power you produce. With current electricity costs, you can expect a 20% return on your investment per year.
