

1MW Off-Grid Solar Container in the Bahamas

Overview

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

How do I go solar?

The first step to going solar is a site assessment. We evaluate your home or business's energy usage and utility rate to determine potential solar savings. With the initial evaluation we're able to determine payoff period and ROI. The solar systems we install typically have a payback between 4-7 years and a 18-20% return each year.
