

# **1MWh off-grid solar container used in Nordic region for train station**

## Overview

---

What is pknergy 1MWh battery energy solar system?

PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. Housed within a 20ft container, it includes key components such as energy storage batteries, BMS, PCS, cooling systems, and fire protection systems.

What is a containerised energy storage system (BESS)?

They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.
