Overview

How much does a solar inverter cost?

The inverter can represent around 20% of the cost of a solar power system. For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA).

Which solar inverter should I buy?

Personally, I always look for mid-range (e.g., Sungrow, iStore) or premium (e.g., Enphase, SolarEdge, Fronius) inverters. I know they are less likely to give me grief over the years. [What Is A Solar Inverter – What Does It Do?](#)

All grid-connected PV systems require a solar inverter 1.

Should I buy a 'budget' or 'premium' solar inverter?

When buying solar, your installer will likely give you the choice of a 'budget' or 'premium' solar inverter. Is it worth paying more for premium?

A premium inverter may:.. than a cheaper inverter, and command a price premium: Only you can decide if the extra money is worth it.

What is inverter efficiency?

Inverter efficiency measures how well a device converts the electricity it receives from the solar panels into power that can be used by your home or exported to the grid.
