

# 2kWh solar energy system

## Overview

---

What is a 2kW solar power system?

A 2kW solar power system is a setup that generates clean electricity by installing Solar PV panels on rooftops. It produces 2 kilowatts of power. By doing so, we can harness the renewable resources of our earth without hindrance.

How much does a 2KW Solar System cost?

The typical cost for a 2kW solar system is around \$4,000. It is important to highlight that solar panel prices have significantly decreased over the past 10 years, making renewable energy more accessible and affordable for homeowners and businesses. Source: The National Renewable Energy Laboratory (NREL).

How many watts can a 2KW Solar System run?

As mentioned above, a 2kW solar system can run 1600 watt of your house load very smoothly. The price range of 2kW solar system depends on its type that are mentioned below. There are 3 types of 2kW solar system that are described below.

Why should you choose a 2KW Solar System?

By relying on your solar panels to power your home or business, you can significantly reduce your dependence on the grid and enjoy substantial savings on your electricity bills. It is worth noting that any excess electricity generated by your 2kW solar system can be sold back to the grid.
