

# **40kWh energy storage container in Portugal**

## Overview

---

How many energy storage projects will Portugal support?

Portugal news » Energy storage competition will support 41 projects The tender, launched in the summer of 2024 to promote renewable energy storage and reduce reliance on fossil fuel sources, has just announced its final results, stated the Ministry of Environment and Energy in a communiqué.

Why is energy storage important in Portugal?

therefore essential to meet European targets. Energy storage installed capacity in Portugal is still predominantly based on hydropower pumping, which is today over 3 GW, and will increase to 4,164 GW whe the Alto-Tâmega dam is completed this year. However, this paradigm is about to shift with the democratization of energy sto.

Can storage replace thermal generation in Portugal?

The pursuit of economic viability by storage facility owners will inherently lead to charging during low-cost hours and discharging during hours that are more economically attractive. Storage can replace thermal generation in constraint markets, easing the grid and supporting Portugal's 2040 phase-out target.

Which solar-plus-storage projects are available for public consultation?

The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal.
