

# **5000MW energy storage equipment**

## Overview

---

What is a 5MWh battery energy storage system?

As well as reducing energy consumption; the single 5MWh battery energy storage system makes it easier to select the energy storage converter (PCS) and configure the power station.

What is a residential energy storage system?

Our residential energy storage systems allow homeowners to store the energy produced by their solar panels during the day and use it at night or during periods of low sunlight. With our energy storage systems, residents can reduce their dependence on the grid and enjoy greater energy independence.

What is Mercury Max 5MWh liquid cooled container?

Mercury MAX 5MWh liquid-cooled container adopts the 1P104S large PACK solution, which increases the energy density by about 20%, effectively optimizing the production process and saving costs; the compact design and reasonable matching of the power of the hydrothermal system can further improve the energy density of the energy storage system.

Is sunwoda a good energy storage company?

Sunwoda, as one of top bess suppliers, officially released the new 20-foot 5MWh liquid-cooled energy storage system, NoahX 2.0 large-capacity liquid-cooled energy storage system. The 4.17MWh energy storage large-capacity 314Ah battery cell is used, which maintains the advantages of 12,000 cycle life and 20-year battery life.
