

500kW Cook Islands Energy Storage Container for Wastewater Treatment Plants

Overview

How to choose a 500 kW / 1075 kWh containerized energy storage system?

When choosing a 500 kW / 1075 kWh containerized energy storage system, you need to consider your application scenarios, equipment performance, system security, scalability, vendor reputation and many other factors. Ensure that the system you choose can meet your long-term needs and provide adequate support and service guarantees.

What is an intelligent containerised waste water treatment plant?

Intelligent containerised waste water treatment plants are ready to use immediately on delivery. A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary.

What is intelligent integrated waste water treatment container?

Based on AAO-MBR technology, our patented intelligent integrated waste water treatment container is a new type of waste water treatment container with high-throughput plate microfiltration membrane as the core component.

What is TLS intelligent containerised waste water treatment system (STP)?

TLS intelligent containerised waste water treatment system or sewage treatment plant (STP) is a modular system where all waste water treatment equipment is completely preinstalled in ISO standard or offshore standard containers.
