

# 500kWh of collapsible containers for EU ports

## Overview

---

Which ports will provide onshore power supply to containerships by 2030?

The Ports of Aarhus, Gothenburg, Bremerhaven, and Stockholm are set to provide onshore power supply (OPS) to containerships calling at the ports by 2030. This is supported by €18.8 million (\$20 million) from the EU fund “Connecting Europe Facility” for the project “EU.OPS.Network”.

Will moored container ships be able to use onshore power supply systems?

By 2030, these ports will implement onshore power supply (OPS) systems to reduce emissions from moored containerships, aligning with upcoming EU regulations which require ships over 5,000 gross tonnages to use OPS while docked.

Will Northern European ports reduce emissions from container ships moored at quays?

Northern European ports in collaboration. Four Northern European ports are set to significantly reduce emissions from container ships moored at their quays.

Which Northern European ports have secured EU funding?

Four Northern European ports: Aarhus, Gothenburg, Bremerhaven, and Stockholm, have secured €18.8 million in EU funding under the Connecting Europe Facility (CEF) for the EU.OPS.Network project.
