## Overview

---

What is a 545 watt solar panel?

The Longi 545Watt Solar Panel is a 545 watt monocrystalline module from the Longi brand, one of the leading manufacturers in the world photovoltaic industry. It consists of 144 cells (6×24).

What is a 144 cell solar panel?

These solar modules are equipped with a state-of-the-art 144-cell configuration, 10BB technology, and Mono PERC cells, ensuring maximum sunlight absorption and efficient energy conversion. With a power output of 545 watts, these panels are well-suited for meeting the energy needs of both homes and businesses.

What is a 540w half cut solar panel?

A 540W Half-Cut Solar Panel refers to a photovoltaic panel that has a power output of 540 watts and employs a "half-cut" cell design. In a half-cut design, the solar cells on the panel are divided into two halves, which are then wired in series.

Are Bluebird 550 watt solar panels DCR or non-DCR?

With a power output of 545 watts, these panels are well-suited for meeting the energy needs of both homes and businesses. Bluebird's 550 Watt Half-Cut Solar Panels are available in both DCR and NON-DCR options to cater to different markets and regulatory requirements. No.
