

5g base station planning of the Mexican Communications Administration

Overview

What is the first commercial 5G network in Mexico?

Together with Telcel, we're launching the first commercial 5G network in Mexico—the largest in Latin America so far—reaching 15 cities in the country with more than 1,500 radio base stations.

What is 5G & how does it work in Mexico?

5G has been launched for industrial purposes in Mexico. Early adopters include sectors such as manufacturing, logistics, and automotive industries. 3.

Is 5G available in Mexico in 2024?

In 2024, 5G is available in almost half the 31 states of Mexico, in which Telcel is the predominant actor throughout the existing 4G frequencies. While 5G is being rolled out in Mexico, the focus is currently on Non-Standalone (NSA) 5G. This means that the initial 5G deployments rely on the existing 4G LTE core network infrastructure. 2.

How much will 5G cost Mexico in 2021?

IT analyst firm, IDC, forecasts that the first year of 5G operations will detonate a value close to USD 4,4 million in Mexico, only in the services sector. The COVID-19 pandemic halted the acceleration of Latin America's economic recovery efforts significantly in 2021.
