

60w solar double glass module

Overview

Are duomax solar panels reliable?

The DUOMAX 40 and 60-cell modules offer reliable and durable energy generation for your home or business. The heat strengthened dual-glass design enables greater reliability and durability backed by Trina Solar's 30-year linear power warranty.

Why should you choose Trina Solar duomax?

The heat strengthened dual-glass design enables greater reliability and durability backed by Trina Solar's 30-year linear power warranty. With its 0.5% annual power degradation and ~25 percent greater lifetime energy production compared to standard modules, the DUOMAX offers a faster return on your initial investment.

Why should you choose a solar module?

Reliable quality leads to a better sustainability even in harsh environment like desert, farm and coastline. High module conversion efficiency (up to 15.44%), through innovative manufacturing technology. Advanced glass and solar cell surface texturing allow for excellent performance in low-light environments.

Why should you choose a duomax Solar System?

With its 0.5% annual power degradation and ~25 percent greater lifetime energy production compared to standard modules, the DUOMAX offers a faster return on your initial investment. When placing a solar system on the roof of your home or business, you desire the highest quality and safety.
