

ASEAN energy storage power station grid connection time

Overview

What is ASEAN's Power Grid integration plan?

With over 40 years of excellence, we deliver innovative solutions tailored to your needs. ASEAN plans full Southeast Asia power grid integration by 2045, targeting 104,000 MW in cross-border links to meet surging demand and cut emissions. Read here!.

Will ASEAN build a power grid in 2021?

To meet this demand, ASEAN must add about 1.7 million kilometers of new transmission and distribution lines between 2021 and 2030. This massive buildout is central to Southeast Asia Power Grid Integration, ensuring electricity can flow across borders efficiently and affordably. Progress is already visible.

Is ASEAN ready for the energy transition?

Ensuring ASEAN is ready for the energy transition will require the region and its member states to scale up current plans for grid expansion and refurbishment to meet projected electricity generation needs, as well as a fundamental rethinking of energy market design to enhance grid flexibility and reliability.

What is the ASEAN Power Grid (APG)?

Ensuring a secure and stable electricity supply is critical, and the ASEAN Power Grid (APG) aims to achieve this through regional energy integration, enhanced grid infrastructure, and a unified power market.
