

Abu Dhabi LTE emergency solar container communication station energy storage wireless backhaul

Overview

Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

What is EWEC doing in Abu Dhabi?

Located in Abu Dhabi, the project will feature a 5.2 gigawatt DC solar photovoltaic plant, coupled with a 19 gigawatt-hour battery energy storage system, setting a global benchmark in clean energy innovation. "In collaboration with EWEC and our partners, we will develop a renewable energy facility capable of providing clean energy round the clock.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Is the Middle East ready for battery storage?

The Middle East region has been relatively slow in its adoption of battery storage compared to more mature markets like China and the US. However, it is predicted to rapidly catch up based on policy announcements such as Saudi Arabia's Vision 2030 strategy.
