

# **Address of the power supply plant at the Rabat base station**

## Overview

---

Will Mitsubishi power supply two J-class turbines to Al Wahda power plant?

□ Mitsubishi Power to supply to Al Wahda Power Plant two J-class turbines, one of the world's leading gas turbines with industry-leading reliability and high efficiency, supporting Morocco's energy goals and grid stability.

Where is Al Wahda power plant located?

The Al Wahda Power Plant, located near Al Wahda Dam in the Province of Ouazzane in the north of Morocco, will play a crucial role in stabilizing the Moroccan national grid.

When will the Al Wahda power plant start operation?

The Al Wahda Power Plant is expected to begin operation in 2027. In addition, Mitsubishi Power signed a long-term service agreement with ONEE for the provision of parts, repairs and services, to ensure high availability and sustained reliability of the equipment.

How many MW will Al Wahda power plant generate?

□ Once operational, Al Wahda Power Plant will generate a combined 990 MW, representing nearly 7% of Morocco's national grid capacity. □ Al Wahda Power Plant expected to begin operations in 2027.
