

# **All-in-one machine with uninterruptible power supply**

## Overview

---

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) are essential to ensure you have continuous power during a power outage. From a small UPS to save and shut down your PC, to large commercial systems that power large data centers or critical systems in hospitals, we have the solutions you and your customers demand.

Are battery-backed uninterruptible power supplies reliable?

Reliability of power sources is an increasing challenge in many sectors and battery-backed uninterruptible power supplies (UPS) are one option to protect and keep electronic equipment operating in the event of grid power failure.

What is int power ups?

INVT Power UPS products range from 1kVA to 600kVA and various UPS accessories as an option, and now we can also offer precision cooling systems, and integrated modular data center solutions for customers, which meet your different requirements in different application scenarios.

What is an all-in-one smart power distribution system?

The All-in-one Smart Power Distribution System integrates the UPS host, IT power distribution, air conditioning power distribution, lighting power distribution, mains supply ATS, UPS input power distribution and UPS output power distribution in one cabinet.

## All-in-one machine with uninterruptible power supply
