

# Asian Solar Street Light Design

## Overview

---

Where to buy solar street lights in China?

For instance, you can choose LEADSUN, which has produced the best quality and durable street lights for 13 years now. Also, SOKOYO can be another option as it is China's biggest solar lights manufacturer company and supplies its products to over 70 countries. However, if you want a company with a high-tech enterprise certificate, go for SreSky.

How to design a solar street light?

1. Solar Street Lighting Demand Design Formula:  $P_{LED} = E \times A / (\eta \times U \times K)$   
Example: Road width 6m, distance between lights 25m, target illuminance 20 lx →  $P_{LED} = 20 \times (6 \times 25) / (0.85 \times 0.5 \times 0.75) = 20 \times 150 / 0.32 \approx 94W$  → Choose a 100W LED module (Luminous flux 15,000 lm)  
2. Solar Street Light Photovoltaic System Capacity Calculation Steps: 3.

Who makes solar streetlights?

Sokoyo started its journey as a solar streetlights manufacturer and distributor in 2008. It is one of the top solar streetlights companies and supplies the lights in Africa, Australia, Asia, and 70 other countries. This company provides two types of solar streetlights: split type and gel battery solar streetlights.

Where do solar street lights come from?

The main markets for Sunmaster are in Africa and the Middle East. These ten manufacturers are trailblazers in the ever-changing field of solar street lighting. The inventive folding design of Cmoonlight is just example of how the top 10 solar street light manufacturers have proven their dedication to quality products.
