

# **Asmara outdoor communication battery cabinet performance test system**

## Overview

---

What is an outdoor NEMA 3R Battery Cabinet?

Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment. This becomes a great alternative for substations with limited interior space allowing for consolidation of your DC power system. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is an outdoor Battery Cabinet?

HindlePower's Outdoor Battery Cabinet is constructed of extremely durable injected foam panels that achieve a level of thermal performance not previously seen in traditional battery cabinets. Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F.

Is hindlepower's outdoor Battery Cabinet IBC certified?

Take a look at our 3rd party test data here to view it yourself. HindlePower's Outdoor Battery Cabinet is certified to IBC 2012, CBC 2013, and IEEE 693 to the highest levels. See our certification document here for more information.

How does the IntePro battery test system work?

The simulator can be programmed manually or driven by an arbitrary signal to simulate real-life battery conditions. A 0 - 6v differential input signal can control the 0 - 60v output voltage. 1. What is the Intepro Battery Test System?
