

# Baizhang Energy Storage Power Station

## Overview

---

Where is the largest energy storage station in China?

The Baotang energy storage station in Foshan, South China's Guangdong Province, the largest of its kind in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA), is now in operation. It is the largest grid-side individual energy storage station built in one continuous construction period.

What happened at an energy storage power station in Beijing?

Firefighters work in the accident site in an energy storage power station in Fengtai District of Beijing, capital of China, April 16, 2021. Two firefighters died when they were putting out a fire in an energy storage power station on Friday.

Where is Baotang energy storage station located?

(Executive editor: Xie Yunxiao) The Baotang energy storage station in Foshan, South China's Guangdong Province, the largest of its kind in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA), is now in operation.

How many kilowatt-hours of green power can a China Energy Storage Station produce?

It is estimated that the station can export 1.2 million kilowatt-hours of green power per day. An energy storage station plays a key role in building new-type power systems and supporting realization of China's "dual carbon" goals of peaking carbon dioxide before 2030 and reaching carbon neutrality before 2060.
