

Bangladesh Energy Storage Project Battery Plant

Overview

The Ceylon Electricity Board (CEB), Bangladesh's state-owned power utility, has launched a competitive bidding process for large-scale battery energy storage system (BESS) projects aimed at stabilizing the national grid as more intermittent renewable sources come online. Will Bangladesh's first lithium battery plant strengthen its industrial sector?

Ali Reza Iftekhar, managing director and CEO of Eastern Bank, which is the mandated lead arranger for the loan, said the establishment of Bangladesh's first lithium battery plant will not only strengthen Bangladesh's industrial sector but also aligns with the global shift toward clean and sustainable energy solutions.

Is energy storage regulated in Bangladesh?

For example, the Bangladesh Energy Regulatory Commission (BERC) Licensing Regulations 2006 do not include rules for licensing of energy storage technologies (except for pumped storage). The institutional framework for the procurement and deployment of such projects is well established in the country.

What can be done about grid connected energy storage in Bangladesh?

Limited experience and knowledge of grid connected energy storage in Bangladesh. Early-stage pilot programmes such as the planned 2MW grid connected BESS funded by the Asian Development Bank (ADB) would further support capacity building and knowledge transfer. 3.3.

Will European Union fund energy storage in Bangladesh?

Bangladesh government and potential investors into energy storage were handed European Union-funded roadmap for the technology's development.
