

# Barbados Lead Acid Battery Cabinet Customization

## Overview

---

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What are the safety requirements for a lead accumulator?

ENERPOWER has developed a project that adapts to the safety criteria referred to by the current legislation CEI 21-6 / December 1990 for the installation of lead accumulators. Adequate natural ventilation (in the charging conditions indicated by ENERPOWER).
