

Battery cabinet for 72 volt batteries in Berlin

Overview

What is a battery line Safety Cabinet?

The BATTERY line safety cabinets are specially constructed to meet the high requirements for the safe storage and charging of lithium-ion batteries, which can self-ignite in the event of malfunction.

What is a simple battery cabinet?

Simple battery cabinets are usually charging cabinets for lithium-ion batteries. These cabinet types are characterized by the fact that they have a charging option for rechargeable batteries / mobile devices. Depending on the battery cabinet and design, these are usually one or more 230V sockets and increasingly also USB charging sockets.

Should batteries be stored in a battery safety cabinet?

If comprehensive fire protection is required for battery storage, battery safety cabinets are the right choice. On the other hand, if the focus is purely on storage and orderly charging, normal charging cabinets are sufficient. Should defective batteries be stored?

.

Are battery cabinets fireproof?

Battery cabinets comprise two product classes - on the one hand rather simple battery charging cabinets, which have a charging option or a power connection, and on the other hand fireproof safety cabinets, which have a particularly high safety level for the storage of lithium-ion batteries and are usually also fire protection-certified.
