

Battery cabinet with neutral line station

Overview

What are the safety storage cabinets for lithium-ion batteries?

Safety storage cabinets for passive or active storage of lithium-ion batteries according to EN 14470-1 and EN 1363-1 with a fire resistance of 90 minutes (type 90) — fire protection from the outside-in and from the inside-out.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

Why should you choose Ion-line battery storage cabinets?

Dangerous: Unattended storing and charging of batteries. All-round protection: ION-LINE safety storage cabinets for your safety. Frequent, sometimes weekly accidents and countless damages prove that the unattended charging and storing of batteries, for example, overnight, poses significant risks and dangers.

Which lithium-ion charging cabinets should I Choose?

Asecos provides two reliable lithium-ion charging cabinets to fit your specific needs. Both options offer exceptional fire protection and safety features, ensuring secure storage and battery charging. This guide will help you choose the right cabinet size for your space and capacity requirements.

Battery cabinet with neutral line station
