

# **Battery inverter manufacturer in Gothenburg Sweden**

## Overview

---

NOVO Energy AB is a Swedish battery development and manufacturing company established as a joint venture between Volvo Cars and Northvolt. Who makes lithium batteries in Sweden?

In Sweden, SAFT produces primary and secondary lithium batteries for the defense, rail, and telecommunications sectors. They develop large-scale of various energy storage system for the renewable energy industry as well. In present time, SAFT continues to be a major supplier of batteries for critical sectors such as military and infrastructure.

Where are battery factories located in Sweden?

The capital city of Sweden is not only a cultural hub but also a prominent center for battery manufacturing. With its strategic location and robust infrastructure, Stockholm serves as a key supply chain center for several battery factories in the region.

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

Who makes Volvo batteries?

Volvo Energy develops batteries for electric trucks, buses, and heavy equipment. It also offers a second-life battery service, where used batteries are converted for stationary energy storage. This ability is making them one of the top 10 battery manufacturers in Sweden.
