

# **Battery storage in the Democratic Republic of Congo**

## Overview

---

Why should the Congolese government invest in EV & battery storage?

It also highlights the potential for increased engagement with the Congolese government to promote global trade of these valuable resources. As the EV and battery storage industries grow, the International Energy Agency (IEA) has predicted that total demand for lithium will rise by close to 90% by 2040.

Are mining sites in the DRC a green future?

As companies globally look toward investing in a green future, particularly in the electric vehicle (EV) industry, mining sites in the DRC have become focal points of the supply chain necessary for constructing the batteries used in these cars.

What role does the DRC play in the electric vehicle industry?
