What is the function of a 100 amp breaker?

A 100 Amp breaker is a component of an electrical panel. When you have a larger amperage service like 200 Amps, the 100 Amp breaker is a part of your system that can handle up to 100 Amps. In a modern home with a 100 Amp panel, half of the safe capacity is used when one appliance is switched on. If there's an issue and you are lucky, the breaker will trip.

How much does a 100 amp breaker panel cost?

Insurance made us put in a new 100 amp breaker panel and it was about \$1600. When we did our reno recently, we wanted to go to 200 amp, but it was \$8000 as Hydro had to put in a new transformer - apparently it was at capacity, so I would have to pay my 'portions' of a new transformer. Needless to say, we kept it at 100 amp.
