

# **Boston Energy Storage Power Station**

## Overview

---

What are the largest battery energy storage projects in New England?

Cranberry Point and Cross Town are the largest battery energy storage projects in construction with planned operations in New England and are expected to be online by the summer of 2025. The Cross Town Energy Storage project commenced construction in April 2024 and is now the largest battery coming online in the region, Plus Power said.

How many energy storage facilities are there in Massachusetts?

The Massachusetts Energy Siting Facilities Board has approved two energy storage facilities with a combined capacity of 400 MW/800 MWh. This decision overturns previous rulings that hindered the development of these facilities. Once operational, they will fulfill 80% of the state's 1 GWh energy storage deployment target for 2025.

Does ISO New England have a battery storage facility?
