

Brazil container battery factory

Overview

Who is launching a battery company in Brazil?

Brazilian battery manufacturer Moura, fuel-cell producer Electrocell, and a consortium formed by Companhia Brasileira de Metalurgia e Mineração (CBMM) and Japanese Toshiba, also plan to establish a presence in the segment.

Why is BMC launching a lithium battery project in Brazil?

"We are excited about this historic collaboration which will not only boost the local economy but also position Brazil at the forefront of technological innovation in the lithium battery sector. This project will create thousands of jobs and promote sustainable economic growth," says BMC CEO Eduardo Javier Muñoz.

Which countries produce batteries for electric mobility?

Brazil is soon to join the ranks of countries producing batteries for electric mobility, a segment led by China, the US, Japan, and South Korea. At least four battery-production joint ventures have recently been established in the country, all involving local players working with a foreign partner.

Will OXIS Brasil be the world's first lithium-sulfur battery plant?

Oxis Brasil will be the world's first plant to produce lithium-sulfur batteries at commercial scale. Several other research centers around the world are now also vested in the new technology.
