

Brunei Solar solar container energy storage system

Overview

How many solar panels are there in Brunei?

The 3.3MW BSP Flagship Solar PV plant at Jalan Tengah, Seria, is Brunei's second solar power plant. It was completed in 2021 and started to produce electricity on 30 March 2021. With almost 7,000 solar panels, it is capable of generating power equivalent to 600 houses. Solar panels installed on a Brunei government building in Temburong.

Who owns the solar plant in Brunei?

The solar plant in Brunei is currently operated and maintained by BSP. Agnete Johnsgaard-Lewis, BSP Managing Director and Shell Country Chair in Brunei, shared this information.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
