

# Can energy storage power stations be privately invested in

## Overview

---

How much investment is needed for stationary energy storage?

According to BloombergNEF (BNEF), more than \$262 billion of investment will be needed for stationary energy storage by 2030. BNEF's 2021 Global Energy Storage Outlook projects significant growth in this sector, with Yayoi Sekine, the firm's head of decentralized energy, stating that 'this is the energy storage decade'.

What's going on with energy storage investment in 2024?

Private equity and venture capital investments in the battery energy storage system, energy management and energy storage sector so far in 2024 have exceeded 2023's levels and are on pace to reach one of the highest annual totals in five years.

Which sector has the most battery energy storage deals?

The industrial sector secured the most battery energy storage system deals, followed closely by the energy and utility sector. In the largest transaction, battery storage company NineDot Holdings Inc. raised \$225 million in a round of funding led by Manulife Investment Management Ltd., with participation from existing backer The Carlyle Group Inc.

Are IRA incentives boosting US battery production?

Global battery manufacturers are leading an expansion of US production facilities, spurred by the IRA's incentives, according to a report by S&P Global Commodity Insights. US battery manufacturing capacity is expected to grow to 1,169 GWh by 2030 from 93 GWh in 2023, the report said. Largest battery energy storage system deals
