

Canberra Base Station Battery Plant

Overview

The 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) will store enough renewable energy to power one-third of Canberra for two hours during peak demand periods, and cost several hundred million dollars. How will the Big Canberra battery project benefit the ACT?

The battery operator will be selected later this year process. “The Big Canberra Battery project will provide renewable energy security across the electricity grid, help the ACT grow its renewable energy sector, provide more local employment opportunities, and deliver a positive financial return for the Territory,” Mr Barr said.

What is stream 1 of the Big Canberra battery project?

The ACT Government's partnership with Eku Energy to develop Stream 1 of the Big Canberra Battery Project in Williamsdale will commence construction later this year. The grid-scale battery will deliver 250MW of storage, support grid reliability and help to integrate greater amounts of renewable generation.

What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

What is the Big Canberra battery transformer?

This stored energy will be used to support our electricity grid. The Big Canberra battery transformer was delivered to the Williamsdale site in early September 2025. The transformer ensures electricity stored in the battery is converted to the correct voltage to be safely supplied to the grid.

Canberra Base Station Battery Plant

Battery failure led to power plant mass ...

Feb 13, 2024 · A battery failure has been blamed for an explosion at a Queensland coal-fired power plant that left nearly half a million residents ...

MOBILE BASE STATION SITE AS A VIRTUAL POWER PLANT ...

Does every power plant have an energy storage station A battery energy storage system (BESS), battery storage power station, battery energy grid storage (BEGS) or battery grid storage is a ...

Origin bets on gas and batteries to keep the lights on

Feb 13, 2025 · Origin is targeting four to five gigawatts of renewables and energy storage by 2030, including the Eraring big battery and a large-scale battery alongside its gas-fired ...

Milestone for Big Canberra Battery

Jul 23, 2024 · The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third of Canberra's peak electricity demand. It will be able to deliver this power for two ...

Canberra's biggest battery gets green light

May 9, 2025 · A 300 megawatt battery proposed in West Belconnen will go ahead after winning ACT planning approval, despite concerns about its ...

Battery storage power station - a ...

4 days ago · A battery storage power station, also known as an energy storage power station, is a facility that stores electrical energy in batteries ...

Williamsdale Battery Energy Storage System

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project ...

Construction begins on ACT's Big Battery

Nov 25, 2024 · The Williamsdale BESS is part of the ACT Government's Big Canberra Battery project and will play a critical role in supporting the ACT's transition to renewable energy and ...

'Futureproofing' power supply: Williamsdale big battery gets ...

Jul 26, 2024 · The batteries capture energy generated from rooftop solar panels, which will help power the sites and reduce electricity costs, benefitting the broader network during peak ...

Power complex: Progress on ACT big battery ...

1 day ago · The battery operator will be selected later this year process. "The Big Canberra Battery project will provide renewable energy security ...

Big Canberra Battery to Future-Proof ACT Energy

Jul 23, 2024 · The Big Canberra Battery project will provide renewable energy security across the electricity grid, help the ACT grow its renewable energy sector, provide more local ...

Safe battery disposal key to preventing fires

Jan 28, 2025 · It is believed discarded batteries caused the fire that ravaged Canberra's recycling plant on Boxing Day 2022. Picture by Sitthixay ...

Taxpayers win as biggest power plant keeps ...

Apr 1, 2025 · Taxpayers won't have to bail out Australia's largest power station - for the coming year at least - as the clock ticks on a once-in-a ...

Construction begins on Williamsdale Battery ...

Nov 22, 2024 · The ACT Government and Eku Energy have begun construction on the 250MW/500MWh Williamsdale Battery Energy ...

Nokia adds Virtual Power Plant to its leading energy ...

Press Release Nokia adds Virtual Power Plant to its leading energy efficiency solution portfolio
Nokia's innovative Virtual Power Plant Controller Software helps mobile operators monetize ...

Construction begins on ACT's Big Battery

Nov 25, 2024 · The Williamsdale BESS is part of the ACT Government's Big Canberra Battery project and will play a critical role in supporting the ...

Williamsdale Battery Energy Storage System

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, ...

The Big Canberra Battery , Williamsdale Energy Storage ...

1 day ago · Battery storage integration with the grid will ensure the continued growth of renewable energy in australia For technical specifications of our work on the Big Canberra Battery, or to ...

Milestone for Big Canberra Battery

Jul 23, 2024 · The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third of Canberra's peak electricity demand. It will ...

Telecom Battery Backup System , Sunwoda ...

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a ...

Big Canberra Battery - Williamsdale BESS

Nov 11, 2025 · The Big Canberra battery transformer was delivered to the Williamsdale site in early September 2025. The transformer ensures electricity stored in the battery is converted to ...

What is the purpose of batteries at telecom ...

Nov 7, 2025 · Introduction Telecom base stations are the backbone of modern communication networks, enabling seamless connectivity for ...

The Big Canberra Battery , Williamsdale ...

1 day ago · Battery storage integration with the grid will ensure the continued growth of renewable energy in australia For technical specifications of our ...

Construction begins on Williamsdale Battery in Canberra

Nov 22, 2024 · The ACT Government and Eku Energy have begun construction on the 250MW/500MWh Williamsdale Battery Energy Storage System (BESS), which will support the ...

Hydro Tasmania Community Batteries Project

Oct 2, 2024 · 39 behind-the-meter community batteries across Australia will be operated and optimised by Hydro Tasmania's cutting edge Virtual ...

Power complex: Progress on ACT big battery facility

1 day ago · The battery operator will be selected later this year process. "The Big Canberra Battery project will provide renewable energy security across the electricity grid, help the ACT ...
