

Canberra Electric Forklift solar container lithium battery Pack

Overview

What is a lithium battery powered forklift?

Lithium battery powered forklifts are a great, sustainable alternative to traditional internal combustion forklifts. With faster charging, longer battery life, zero emissions, and lower maintenance costs, our Enforcer Lithium forklifts are built to boost productivity, reduce downtime, and support cleaner, more efficient workplaces.

Who makes industrial batteries for electric forklifts & ground support equipment?

Our Industrial Battery range for Electric forklifts and Ground Support Equipment features advanced Technologies from Global leading manufacturers including Exide Industries Limited, BSLBatt, and Eternity Technologies.

Are lithium-ion batteries safe for forklifts?

Lithium-ion batteries are safe for forklifts. Linde's lithium-ion batteries have a multi-level safety system at cell, module, and housing levels, alongside a battery management system with comprehensive protective functions, which protects against multiple safety risks.

How long do lithium ion forklift batteries last?

Depending on their composition, Linde lithium-ion forklift batteries have a life expectancy of more than 2,500 full cycles. Unlike the "theoretical" cycle life of other technologies, this extended cycle life is easily achieved in the real world due to lithium-ion batteries being less susceptible to poor maintenance and charging practices.
