

Canberra Energy Storage Lead Acid Battery Manufacturer

Overview

Why should you choose a gel battery manufacturer in Australia?

For over 30 years, we've proudly designed, developed, and delivered premier energy storage solutions to exceed the needs of today and into the future. As the only industrial gel battery manufacturer in Australia, we provide sustainable and reliable power solutions across a range of industries and suited to all environmental conditions.

What is the Act battery project?

We successfully connected the world's first battery storage facility to the grid, a historic milestone for GPG in the renewables business. The ACT Battery project in Australia will enhance the quality of supply in the city of Canberra and accelerate the country's energy transition by enabling greater introduction of renewable energy into the grid.

What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by ECU Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.
