

Canberra Forest Solar Electric System

Overview

Is a solar system right for my Canberra home?

Your daytime use could be free if your solar system is making enough electricity. Many Canberra households have adopted rooftop solar systems, using solar helps support the ACT's electricity supply to be 100% renewable. Use our Solar Calculator to determine if a solar system is right for your home.

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

Can solar power be used in Canberra?

Canberra, with its 4.8 hours of daily sunlight, presents a prime opportunity for solar power adoption. With median electricity bills of \$1,967, solar panels offer tangible relief. By tapping into the sun's energy, residents can significantly slash their electricity costs.

How can solar energy help a Canberra Business?

Solar energy systems and batteries are reducing emissions and helping Canberran's save money on energy bills. Specialist advice is available to help businesses. Systems that use the sun to generate power help reduce our dependence on burning fossil fuels.
