

Car manufacturing energy storage power station in the Democratic Republic of Congo

Overview

How does the Democratic Republic of the Congo support the economy?

In the AC, Democratic Republic of the Congo supports an economy six-times larger than today's with only 35% more energy by diversifying its energy mix away from one that is 95% dependent on bioenergy.

Could the Congo become an electricity exporter?

Almost all electricity generation today comes from hydropower and the Inga project has the potential to provide much more. If network constraints are addressed, Democratic Republic of the Congo could become an electricity exporter.

What role does the DRC play in the electric vehicle industry?

Photo: Unsplash The DRC plays a key role in the electric vehicle industry, supplying crucial minerals while facing labor and economic challenges.

What is the government's vision for power generation in Congo?

The government's vision is to increase the service level to 32 percent by 2030. Lack of access to modern electricity services impairs the health, education, and income-generating potential of millions of Congolese people. Most power generation development is directed and funded by mining companies seeking to power their facilities.

Car manufacturing energy storage power station in the Democratic

Special economic zones emerging in Zambia & DR Congo for EV manufacturing

Jul 3, 2025 · Special economic zones in Zambia and the Democratic Republic of Congo (DRC) are paving the way for job creation across various skill levels. These opportunities extend well ...

Can energy storage support the electrification ...
