

China-Africa solar container battery Enterprise

Overview

In Kenitra, Morocco, a \$5.6 billion investment deal between Morocco and Chinese battery giant Gotion High-Tech is set to transform Africa's role in the global clean energy transition. What is powerchina doing in South Africa?

An aerial view of the Redstone concentrated solar thermal power plant. With the 15th BRICS Summit of leaders held in Johannesburg, South Africa on August 23, the world's attention was once again on South Africa. POWERCHINA has also been engaged in the construction of various green energy projects in the country.

What does powerchina's 123-megawatt damlaagte photovoltaic project mean for South Africa?

In July of this year, POWERCHINA signed EPC (Engineering, Procurement, and Construction) and O&M (Operation and Maintenance) contracts for the 123-megawatt Damlaagte Photovoltaic (PV) Project in South Africa, which hold significant implications for local energy transition.

Where is South Africa's largest solar power plant located?

The 100MW Redstone concentrated solar thermal power plant is located in the Northern Cape province of South Africa and is the country's largest of its kind. The project employs tower solar thermal technology with a total mirror area exceeding 1 million square meters.

Where in South Africa is a clean electricity project located?

The project is located 20 kilometers west of Sasolburg in the Free State Province of South Africa. It will provide approximately 300 million kilowatt-hours of clean electricity to the South African national grid each year, offering crucial support in addressing the local power crisis and promoting regional economic and social development.
