

China all in one solar system in Brazil

Overview

Why is China a strategic partner in Brazil?

China is solidifying its position as a strategic partner in Brazil through significant investments in the energy sector. These projects aim to meet the growing electricity demand and modernize infrastructure while boosting national energy capacity. The Panati photovoltaic park, located in the state of Ceará, is one of the flagship projects.

Why is China investing in Brazil's energy sector?

China is massively investing in Brazil's energy sector, with structural projects in electricity production and transmission, accelerating economic development and integrating the country's power networks. Does China invest in Brazil?

[Photo/Xinhua] Chinese investment in Brazil has grown significantly in recent years as bilateral relations have deepened. China's presence is especially felt in Brazil's energy and infrastructure sectors. A recent analysis by Brazilian digital media outlet Poder360 estimated such investment from Chinese enterprises alone has exceeded \$51 billion.

How much will Brazil's new power plant cost in 2029?

"With an investment of 20 billion reais (\$3.4 billion), the project will supply 5 million kilowatts of power to regions including the capital Brasilia and is scheduled to be put into operation in 2029," said Wang Xiaogang, chief technical officer at State Grid Brazil Holding.
