How much does a battery energy storage system cost in China?

The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS).

How much does Bess cost?

BloombergNEF recently noted a global average price for BESS (without PCS or EMS) of US\$125 per kWh, for example. Kubik suggested the tender's requirements implied it covered an AC block solution. Energy-Storage.news looked at the move towards PCS-integrated AC blocks in a recent article (Premium access).

What is a battery energy storage system (BESS)?

Summary04 Introduction Research Contacts22 Research ContactsEXECUTIVE SUMMARYA Battery Energy Storage System (BESS) secures electrical energy from renewable and non-renewable sources and collects and saves it in rechargeable batteries for use at a later date. When energy is needed, it is released from the BESS to power demand to lessen any
