

Companion 40ah power station in Moldova

Overview

As its name suggests, this power pack uses a 40AH Lithium LiFePO4 battery (Lithium Ion Phosphate), producing a claimed 512Wh per charge. This battery type ensures the power pack uses close to 95 pe.

What is a companion Rover lithium 40ah power station?

The Companion Rover Lithium 40Ah Power Station belied its diminutive size and packed plenty of power to keep electrical gear charged on the recent Simpson Desert adventure. Image credit: Justin Walker Companion's Rover Lithium 40Ah Power Station offers plenty of portable electric grunt to ensure ample power for your camping adventures.

Is Rover lithium 40ah a good power station?

The Rover Lithium 40Ah Power Station's diminutive size belies its literal power and for those looking for a portable charging solution for their camping adventures, this unit is well worth a look. For those after more camp-side grunt, Companion's Rover 70Ah Power Station is another option, albeit with a seriously hefty jump in asking price.

Can a rover lithium inverter power a 240V power station?

The maximum DC output on the Rover Lithium is 40Ah, so the Epak Inverter could give you some options for 240V appliances between 100W and 140W, but you'd be running the risk of damaging the Power Station if you plugged anything greater than this into the Epak Inverter.

Does the Rover lithium 40ah need a recharge?

However, to my very pleasant surprise, the Rover Lithium 40Ah did not need a recharge until after night four, and once recharged (this did take a while, via the vehicle's 12V outlet; we got to 40 per cent power after seven hours of driving) it completed its fridge-powering duties until the end of the traverse.
