

Control switchgear in China in Singapore

Overview

Is the switchgear industry in Singapore safe?

When exploring the Switchgear industry in Singapore, several key considerations emerge. Regulatory compliance is paramount, as the country adheres to strict safety and performance standards set by the Energy Market Authority (EMA) and other governing bodies.

What is the warranty on switchgear panels & control panels?

Fully customisable switchgear panels and control panels of various configurations. Fabricated to suit end user's needs and fulfil local electrical codes standards. 12 months product warranty against manufacturer defects and component defects. Site servicing, repairs, parts replacement is available upon warranty expires.

What is a switchgear used for?

It includes in one unit two switches that can connect the load to either or both main conductors, and a fusible switch or circuit breaker and switch that feed a distribution transformer. This type of switchgear is used for medium-voltage power distribution, from 7.2kV to about 36kV volts.
