

Cuba Communications Services Base Station Maintenance

Overview

Is a flaw affecting Cuba's cellular network?

REUTERS/Alexandre Meneghini/File Photo By Dave Sherwood HAVANA (Reuters) - Cuba's telecoms company ETECSA said on Wednesday that a flaw in its cellular network was affecting voice and cell data service in some areas, though the extent of the outage remained unclear.

What happened to cellular and data coverage in Havana?

The Communist Party newspaper Giron, in Matanzas province east of Havana, reported issues with cellular and data coverage on Tuesday following a problem at a local power generation plant. It was unclear if that smaller outage was linked to the broader outages reported on Wednesday.

Why does Cuba have a blackout?

The outage comes as Cuba suffers daily rolling blackouts that have brought the Communist-run nation's economy to a near standstill. Dire shortages of food, fuel and medicine have also complicated life on the island, prompting a record-breaking exodus to the United States since 2020.
