

# Customized container energy storage in Australia

## Overview

---

Why should you choose a container energy storage system?

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply. **Why Choose a Container Energy Storage System?**

All-in-One Power Solution – Integrated battery storage, inverter systems, and control units in one secure container.

Who is stor-energy?

Stor-Energy is a leading and specialist developer, owner and operator of large-scale battery storage systems across Australia's national electricity market. The company, CitiPower and Powercor, empowers communities by providing them with choices on how to generate, store, use, and sell energy, supporting the transition to a clean energy future.

What is a solar container?

Designed for mobility, our solar containers are easy to transport and install, making them ideal for remote locations or temporary setups. Perfect for off-grid projects, backup systems, or renewable energy initiatives, our solar containers offer a sustainable and reliable energy option.

Will Australia's first energy storage system be operational by 2026?

EnergyAustralia is actively pursuing the development of Australia's first four-hour utility-scale battery, the Wooreen Energy Storage System, with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to advancing energy storage solutions.
