

Customized production of energy storage lithium batteries in Gothenburg Sweden

Overview

Why is Sweden a leader in lithium-ion battery manufacturing?

In the ever-evolving landscape of sustainable energy, Sweden stands out as a beacon of innovation, particularly in the realm of battery manufacturing. With a commitment to environmental responsibility and cutting-edge technology, Sweden has emerged as a global leader in the production of advanced lithium-ion batteries.

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

Where are battery factories located in Sweden?

The capital city of Sweden is not only a cultural hub but also a prominent center for battery manufacturing. With its strategic location and robust infrastructure, Stockholm serves as a key supply chain center for several battery factories in the region.

How is Gothenburg reskilling the battery industry?

Reskilling and upskilling initiatives for the region's new battery industry are also underway. Among them is a unique education and training centre which has opened in Gothenburg, specifically for the battery value chain. Around 7,000 people will be trained in state-of-the-art facilities between 2024 and 2029.
