

Customized sine wave power frequency inverter

Overview

What is the best sine wave inverter in Australia?

In the Australian market, GIANDEL offers an excellent pure sine wave inverter with great tech support. The Go Power! 300W inverter is another top choice, known for its quiet operation and high-quality power output.

Is it possible to buy discount pure sine wave inverter?

Please rest assured to buy discount pure sine wave inverter from our factory. Also, quotation and pricelist are available.

How much power does a sine wave inverter use?

A 15 cu. ft. fridge uses 105 watts an hour with a pure sine wave inverter, making the total daily consumption 840 watts. With a modified sine wave inverter, the power consumption is 120 watts, resulting in a daily consumption of 960 watts. Some modified sine wave inverters have even lower efficiency ratings than that.

Should I buy a modified sine wave inverter?

If the equipment an inverter will serve can run on modified sine wave current, you may as well save money and buy a modified sine wave inverter. A high level of Total Harmonic Distortion (THD) can create noticeable problems in the operation of certain electronics, such as televisions, computers, speakers, and fluorescent lighting ballasts.
