

# Djibouti Energy Storage Container

## Overview

---

What is Djibouti Container Terminal?

Accessible by rail and road from various locations including Ethiopia, it is illustrating its aim of multipurpose facility. The Port of Djibouti Container Terminal has a handling capacity of 350 000 TEU Per annum. Reefer containers can be easily accommodated by 126 reefer plug points available in the yard.

How many berths can a container hold in Djibouti?

The Port of Djibouti Container Terminal has a handling capacity of 350 000 TEU Per annum. Reefer containers can be easily accommodated by 126 reefer plug points available in the yard. Vessels of capacity up to 8000 TEU can be operated along the two berths of 400m. Berth Characteristics and Equipment Berth 2 (220m) has a depth of 12m.

What types of energy storage systems does Jinko power offer?

Depending on application scenario, Jinko Power provides all types of customers with tailored energy storage system solutions, including power energy storage system integration solutions, industrial and commercial energy storage system integration solutions, and household energy storage systems.
