

Does the radio outdoor base station have batteries

Overview

What is an outdoor base station?

The Outdoor base station has a maintenance-free, space-saving design and can be installed on walls, antenna masts or in tunnels. Thanks to its market-leading low power consumption and passive cooling, it is ideal for use in areas where power supply is critical or where there is a need for battery-based, portable base station solutions.

Why should you choose a dib-r5 outdoor radio system?

As an ultra-compact radio system with dedicated switching controller function, the DIB-R5 outdoor dramatically reduces operating costs. Even without the investment in a complex, costly radio switching system, the entire range of TETRA services is available to you; including interfaces to telephone networks, control centers and applications.

What is a dib-r5 outdoor antenna?

The DIB-R5 outdoor is designed for outdoor operation in harsh conditions thanks to IP65 rating. With compact structure and weighing only 10 kg, it can be flexibly mounted on the wall or pole to extend coverage. Offering up to two TETRA carriers, the DIB-R5 supports dual diversity for optimal reception and low power consumption.
